

International Compression Club

# Preliminary Programme for the ICC Annual Meeting in Milano (IT), May 5th 2023

Start	End	Duration	Session	Title	Speaker
08:30	08:45	00:15	Session 1	Compression therapy: from egyptians to the modern era	Christian Gardon Mollard
08:45	09:00	00:15	Session 1	Advanced textiles for compression	Lieva Van Langehove
09:00	09:15	00:15	Session 1	Wearable biosensors: current advances	Willi Chi
09:15	09:30	00:15	Session 1	Adressing the potential for pressure-sensing, connected-health technology to improve implementation of compression therapy	Andrew Cameron
09:30	09:45	00:15		Discussion	
09:45	10:00	00:15		Coffee Break	
10:00	10:15	00:15	Session 1	New device of volumetry assessment	Jean-François Uhl
10:15	10:30	00:15	Session 1	Insights in compression effectiveness: from bandaging material & technique, via pressures, to stiffness	Mieke Flour
10:30	10:45	00:15	Session 1	New devices	Giovanni Mosti
10:45	11:00	00:15		Discussion	
11:00	11:15	00:15		Coffee Break	
11:15	11:30	00:15	Session 1	Compression and recovery in sports	Helmut Lötzerich
11:30	11:45	00:15	Session 2	Tension- free compression	Chris Lattimer
11:45	12:00	00:15	Session 2	Compression by water	Alberto Caggiati
12:00	12:15	00:15	Session 2	A new compression device for recalcitrant ulcers	Chris Lattimer
12:15	12:30	00:15		Discussion	
12:30	13:30	01:00		Lunch Break	
13:30	13:40	00:10	Session 3	Adjustable compression wraps: is there a correlation between tests in vitro realized with Hirai leg and tests in healthy volunteers?	Jean Patrick Benigni
13:40	13:50	00:10	Session 3	Adjustable compression wraps: evaluation of leg edema reduction by 3D surface scan	Wassila Taha
13:50	14:00	00:10	Session 3	Protocol of the maintenance-lymph-trial: a multicenter single-blinded randomized controlled trial to investigate the effect of weekly self-bandaging in patients with lower limb lymphedema	Ann-Kathleen Heroes
14:00	14:10	00:10	Session 3	Effective method for treating proximal lymphedema	George Kerelous
14:10	14:20	00:10	Session 3	Pressure measurement of compression bandages and the transfer to braces (orthoses and supports): first in vitro data	Jerome Molimard
14:20	14:30	00:10		Discussion	
14:30	14:45	00:15		Coffee Break	
14:45	14:55	00:10	Session 3	Comparison between different continents about compression therapy standards	Eduardo Da Matta
14:55	15:05	00:10	Session 3	JOBST*Confidence - innovation in flat-knit compression	Verena Voss
15:05	15:15	00:10	Session 4	From a discovery by hippocrates during egyptian times to the future of quantification in wound healing	Torbjorn Lundh
15:15	15:25	00:10	Session 4	Compression therapy in lymphatic ulcers reduce infections and lymphorrhoea	Alberto Maccio
15:25	15:35	00:10	Session 4	Pneumatic compression to prevent limb loss in sepsis	Gabriele McMullin
15:35	15:45	00:10		Discussion	
15:45	16:00	00:15		Coffee Break	
16:00	16:10	00:10	Session 4	Unknown levels of compression may result in inconclusive study results	Andreas Nilsson
16:10	16:20	00:10	Session 4	Adjustable velcro wraps (avw) in decongestion phase of lymphedema	Franz-Josef Schingale
16:20	16:30	00:10	Session 4	The padding with vertically stiched foam can facilitate the formation of new tissue channels in the lymphedema limb and improce IPC's effect	Marzanna Zaleska
16:30	16:40	00:10	Session 4	Digital therapy success determination in the field of compression therapy	Michael Klöppels
16:40	17:00	00:20		Final Discussion
